SUBJECT :

CORONA

[REDACTED]

NRO25X1

I felt the meeting on 20 February was reasonably successful in presenting the present state of affairs in this program. I also feel that we now have a firm grasp on the subject. I think the following actions should be taken:

1. Prepare a paper for the DCI from the DD/R commenting on the inter-relation of Project [REDACTED] and our present CORONA.

2. The final status report should be sent to the DD/R for his information.

3. Conclusions and recommendations of the meeting should be summarized.

4. The appropriate answer to the recommendations by Lockheed should be furnished.

6. Obtain a more definitive set of proposals for the [REDACTED] experiment.
